At a regular meeting of the Common Council of the City of Plattsburgh, New York, held September 24th, 2020, the following resolution was adopted:

By Councilor ; Seconded by Councilor

WHEREAS, the following resolution was adopted on September 24th, 2020, and

WHEREAS, the Capital Expenditure Plan adopted January 14th, 2016, includes a Bridge & Waterfront category, and

WHEREAS, the Engineering and Planning Department established a 2016 Saranac River Trail – Phase II project that was included in the Bridge & Waterfront category of the Capital Expenditure Plan adopted January 14th, 2016, and requested to further amend the Capital Expenditure Plan to include an increase to the 2016 Saranac River Trail – Phase II item in the Bridge & Waterfront category for the demolition of the Saranac Street Bridge, and the Infrastructure Division for the City is asking to further amend the project cost to include the installation of two foot bridges and all of the related engineering design and construction monitoring to complete the project, as follows,

WHEREAS, the cost of the 2016 Saranac River Trail – Phase II project was estimated by the Engineering and Planning Department for the costs to implement the improvements during 2016, and has been revised again in 2019 and 2020, and is being further revised in 2020, as follows:

	2016 Capital Plan	**2016 Revised Cost**	**2016 Revised Cost**	**2019 Revised Cost**	**2020 Revised Cost**	**2020 Revised Cost**
Saranac River Trail – Phase II	$ 1,870,000	$ 2,370,000	$ 2,370,000	$ 2,812,156	$ 3,460,252	$ 3,460,252
Saranac St. Bridge Removal	-	-	200,000	293,977	293,977	293,977
Total	$ 1,870,000	$ 2,370,000	$ 2,570,000	$ 3,106,133	$ 3,754,229	$ 3,754,229
Project Funding:						
Federal Funding	$ 1,496,000	$ 1,496,000	$ 1,496,000	$ 1,443,866	$ 1,443,866	$ 1,443,866
NYS OPRHP	-	500,000	500,000	500,000	500,000	500,000
Sewer Fund	-	-	-	-	-	270,000
General Fund Bonds	374,000	374,000	574,000	1,162,267	1,810,363	1,540,363
Total	$ 1,870,000	$ 2,370,000	$ 2,570,000	$ 3,106,133	$ 3,754,229	$ 3,754,229

Now therefore,

BE IT RESOLVED, by the Common Council of the City of Plattsburgh, New York, this 24th day of September 2020, as follows:

1) That, the amount of Three Million Seven Hundred Fifty-four Thousand Two Hundred Twenty-nine and 00/100 ($3,754,229.00) Dollars is included in the Capital Expenditure Plan adopted January 14th, 2016, and is hereby appropriated for the capital project **2016 Saranac River Trail – Phase II (H5110.58)** for the cost of the improvements as revised four times above and is hereby authorized to be expended for such purpose.

2) That, One Million Four Hundred Forty-three Thousand Eight Hundred Sixty-six and 00/100 ($1,443,866.00) Dollars of such appropriation be provided by funding under a grant from the Federal Government.

3) That, Five Hundred Thousand and 00/100 ($500,000.00) Dollars of such appropriation be provided by funding under a grant from the New York State Office of Parks, Recreation and Historic Preservation.

4) That, Five Hundred Seventy-four Thousand and 00/100 ($574,000.00) Dollars of such appropriation has been provided by Serial Bonds issued November 2nd, 2017, by the City of Plattsburgh, funded through annual debt service to be budgeted as spending from the General Fund.

5) That, Two Hundred Seventy Thousand and 00/100 ($270,000.00) Dollars of such appropriation be provided by the Sewer Fund.

6) That, Nine Hundred Sixty-six Thousand Three Hundred Sixty-three and 00/100 ($966,363.00) Dollars of such appropriation be provided by an advance from the General Fund, but that such advance be repaid to the General Fund by year end 2020 through funding of this portion of the project with a Serial Bond Issue.

7) That, this resolution takes effect immediately.

MEMORANDUM

From: Matthew Miller, Director of Community Development
Richard Marks, Chamberlain

To: Colin Read, Mayor
Members of the Common Council

Subject: Saranac River Trail Phase 2 Bid Results and Financial Analysis

Date: August 31, 2020

As you'll recall, a considerable portion of the scope of work for Saranac River Trail (SRT) Phase 2 was removed after the first bid round resulted in a low bid roughly $750,000 higher than the most recent construction estimate from the City's consulting engineer (Stantec). With the Council's approval, we removed everything from the scope that we could without jeopardizing the City's ability to get reimbursed for the completed work and rebid the project.

Four bids were received in response to the second round of bidding. Three companies submitted bids during both bid rounds. Of those three, two firms submitted bids that were, respectively, $463,000 less and $476,000 less than the bids they submitted during the first round. These reductions align roughly with the reduction in project scope and the anticipated reduction in costs between the first and second round. The low bidder in the first round, Luck Brothers, Inc. (Luck), also submitted the low bid for the second round but, unfortunately, their second round bid was only $114,000 lower than their first round bid. **Luck's second round bid was $3,098,502 which is 12% ($332,124) higher than Stantec's construction cost estimate of $2,766,378 for the reduced scope of work.**

For a summary of the financial history of SRT Phase 2 thus far, please refer to my previous memo dated August 28, 2019 which has been attached for reference. That memo resulted in the Council's appropriation of an additional $588,267 from the City's General Fund to complete the project which was based, at the time, on an estimated construction cost of $2,500,406. I have updated the cost breakdown included in that memo to reflect the actual construction cost represented by Luck's low bid. In summary, the figures are as follows:

	$230,134	Design costs charged to 2014 capital project
+	$293,977	Design & bridge removal costs charged to 2016 capital project
+	$61,750	ROW design & acquisition costs charged to 2016 capital project
+	$300,000	Construction inspection services contract amount (Stantec)
+	$3,098,502	Construction cost (Luck)
	$3,984,363	Total Cost of Phase 2
-	$1,626,000	Federal funding
-	$500,000	NYS Parks grant
-	$622,000	General Fund bonds already borrowed for both capital projects
-	$854,267	General Fund bonds previously approved but not yet borrowed
	$382,096	Additional borrowing required to complete Phase 2 construction

Between the two capital projects, $622,000 has already been borrowed for Phase II. $854,267 in additional borrowing have previously been approved by the Council but have yet to be borrowed. In order to complete construction of the project, the Council would need to commit to the borrowing of an additional $382,096.

A total of $593,530 has already been spent on Phase II and an additional $313,752 has been encumbered on active purchase orders. **Please also consider that the abandonment of the project at this point would likely require the City to surrender the $182,399 in federal funding for which it has already been reimbursed.** In addition to the financial ramifications, abandonment of the project would strain the City's relationship with DOT and could affect future funding allocations from that agency.

Chamberlain Marks has provided an analysis (also attached) detailing the effects that the Council's approval of Luck's bid would have on the City's debt service schedule for the soon-to-be-issued public improvement serial bonds. Approval of Luck's bid would result in a total bond issuance of $6,756,332. Rejection of all the current bids would result in a total bond issuance of $5,519,970, a difference of $1,236,362.

That difference represents the sum of both the additional $382,096 appropriation required to complete the project and the $854,267 in General Fund bonds previously approved by the Council buy not actually borrowed because, if construction of Phase 2 did not proceed, there would be no reason to borrow those funds. **On an annual basis, the City's debt service payments would be, on average, $135,602 higher if the Council approved Luck's bid than if they rejected all bids.**

We recognize that the commitment of the funds necessary to complete this project is an extraordinarily difficult decision, especially given the anticipated financial fallout from the COVID-19 pandemic. However, we felt it would be a disservice to both the Council and the project if we did not include a comparison of the project's upfront expenses to its long term benefits. Those benefits are detailed in multiple feasibility studies conducted over the previous 15 years. The Saranac River Trail Feasibility Study, completed in 2006, analyzed benefits specific to those sections of the trail to be built within the City of Plattsburgh. A second study, 2016's Saranac

River Trail Greenway (SRTG) Feasibility Study, analyzed the benefits of the proposed SRTG's entire 27 miles of trail to Clinton County as a whole and included analysis of a broader range of benefits.

Due to its more recent vintage and its inclusion of the effects on property values, we have focused herein on the conclusions of the 2016 SRTG Feasibility Study. A summary of that study's conclusions is presented below and displays the anticipated annual financial benefits of the SRTG as a range of values to accommodate the numerous variables inherent to the analysis.

Health, Economic and Environmental Benefits

The chart below summarizes the health, environmental, transportation and economic benefits that could be realized through the implementation of the SRTG. These conservative estimates are presented as a range from low to mid to high. A more detailed explanation of these benefits is included in Appendix C.

	LOW ESTIMATE		MID ESTIMATE		HIGH ESTIMATE	
	BIKE	WALK	BIKE	WALK	BIKE	WALK
HEALTH						
Annual Trips	907,000	109,000	1,178,000	205,000	1,569,000	663,000
Annual Miles	1,269,000	34,000	1,648,000	65,000	2,195,000	209,000
Annual Hours of Physical Activity	127,000	12,000	165,000	22,000	220,000	70,000
Recommended Physical Actitivity Min. Met	977	92	1,269	169	1,692	538
Regional Physical Activity Need Met	2.27%	0.86%	2.95%	1.58%	3.93%	5.02%
Healthcare Cost Savings	$41,000	$5,000	$53,000	$9,000	$71,000	$26,000
ENVIRONMENTAL						
CO2 Emissions Reduced (lbs)	1,192,000	45,000	1,549,000	84,000	2,062,000	271,000
Other Vehicle Emission Reduced (lbs)	26,000	1,000	33,000	2,000	44,000	6,000
Total Vehicle Emission Costs Reduced	$26,000	$1,000	$34,000	$2,000	$45,000	$6,000
TRANSPORTATION						
Annual VMT Reduced	788,000	31,000	1,023,000	58,000	1,362,000	188,000
Reduced Traffic Congestion Costs	$55,000	$2,000	$72,000	$4,000	$95,000	$13,000
Reduced Vehicle Crash Costs	$394,000	$15,000	$512,000	$29,000	$682,000	$94,000
Reduced Road Maintenance Costs	$118,000	$4,000	$153,000	$8,000	$204,000	$28,000
Household Vehicle Operation Cost Savings	$449,000	$18,000	$583,000	$33,000	$776,000	$107,000
ECONOMIC						
Estimated Increase in Tourism Spending	$1,462,200		$1,462,200		$1,462,200	
ADDITIONAL BENEFITS	**$2,590,200**		**$2,954,200**		**$3,609,200**	

Note: Estimates reflect conceptual benefits that would be generated at given increases in walking use as if they existed in study area today. Values are rounded for readability. Values are not discounted and do not reflect future demographic growth, cost changes or other multiplier changes. Full full explanation of results see Appendix A.

As shown above, health benefits include healthcare savings resulting from the increased recreational opportunities available to residents and the ability of those residents to lead healthier, more active lifestyles. Environmental benefits include anticipated increases in the number of bicycle and walking trips and associated reductions in both carbon dioxide emissions and environmental damage/cleanup costs. Decreased reliance on motor vehicles will result in transportation benefits including reductions in traffic congestion, vehicle collisions, required road maintenance, and fuel costs. An anticipated increase in tourism spending is included under economic benefits and while the listed figure of $1,462,200 applies to the county-wide increase in spending, it is reasonable to assume that as the social and economic center of Clinton County, the City's share of this additional tourism revenue would be considerable.

One financial benefit not included in the above table is the effect completion of the SRTG will have on property values. The 2016 SRTG Feasibility Study estimated that the demand for property within one mile of a trail, trailhead, or scenic view of a trail would result in an increase in the value

of applicable properties by a minimum of 4%. The county-wide impact of this increased demand on assessed property values is detailed in the table below and indicates that completion of the SRTG will result in a strengthening of the City's tax base.

	Property Values
Total Assessed Value of parcels within 1 mile of proposed SRTG*	$407,529,711
Estimated property value increase	4%
Estimated increase is assessed property value	$16,301,188

*Total value excludes all industrial and public parcels

To evaluate what portion of these county-wide benefits would accrue to the City if Phase 2 was completed, we chose the admittedly simplistic method of prorating the benefits based on the percentage of the SRTG's mileage contained within Phase 2 of the SRT. The summarized results of this method are presented below.

Trail Designation	Length (miles)
SRTG	27
City SRT (Phase 2)	0.5

Additional Benefits Excluding Increases in Property Values	Annual Benefit	Annual Benefit per Mile	Annual Benefits Accruing to City (2016 SRTG Study)	Annual Benefits Accruing to City (2020 Adjusted for Inflation)
Low Estimate	$2,590,200	$95,933	$47,967	$52,459
Mid Estimate	$2,954,200	$109,415	$54,707	$59,830
High Estimate	$3,609,200	$133,674	$66,837	$73,096

Taxing Jurisdiction	Total Increase in Assessed Property Values	Total Increase in Assessed Property Values (2020 Adjusted for Inflation)	2020 Tax Rate (per $1,000 of assessed valuation)	Annual Increase in Property Tax Revenue
Clinton County	$16,301,188	$17,827,644	$5.92	$105,540
City of Plattsburgh	$301,874	$330,142	$11.65	$3,846

By adding the anticipated increases in property tax revenue to the low and high estimates of the additional benefits that will accrue to the City, **these results indicate that the City can expect total annual benefits from the SRT ranging from $56,305 to $76,942**. It should be noted that these figures represent conservative estimates as our analysis assumes a linear relationship

between trail mileage and financial benefits. The City, however, will benefit disproportionately from increases in both tourism spending and property values near the trail than will the rest of Clinton County due to the City's density and status as Clinton County's social and economic center.

To summarize, the annual debt service payments required to complete construction of Phase 2 do outweigh the financial benefits the City can expect from completion of the project ($135,602 annual debt service payments vs. a maximum of $76,942 in benefits). However, the financial benefits of Phase 2 will continue to accrue to the City long after the bonds required to construct it have been retired. Ongoing maintenance costs of a completed Phase 2 have not been included in this analysis as we felt their inclusion would be overly speculative.

Generally, a project garners less interest from contractors each time it is rebid and construction costs almost always increase over time. Luck has indicated that, should the City choose to reject the second round of bids, they would not submit a bid during a third round. In any case, there is little left in the project scope that could be removed in order to facilitate a third round.

The project's $500,000 NYS Parks grant expires at the end of 2020 and, while that agency would likely grant an extension of that deadline if the City had a construction contract in place for completion of Phase 2, the rejection of this round of bids would probably result in the loss of that grant. Discussions with NYSDOT have indicated that the $1,626,000 in federal funding would also be lost if the City chose not to move forward at this time. As stated above, failure to complete Phase 2 would also require the City to repay the $182,399 in federal funding for which it has already been reimbursed.

Unfortunately, the Council does not have the option of waiting for prevailing economic conditions to improve before moving forward with construction of Phase 2. To do so would result in the City's General Fund shouldering the entirety of the financial burden which is simply not feasible given its financial position. If the Council decides not to proceed with construction at this time, it is our opinion that SRT Phase 2 will be effectively dead.

CITY OF PLATTSBURGH, CLINTON COUNTY, NEW YORK
