 USE
CLASS A VARIANCE

 X AREA
CLASS B VARIANCE

 SUP
SPECIAL USE PERMIT

Date: 06/19/20

Appeal No.: 2266

An application is hereby made to the Zoning Board of Appeals pursuant to the City of Plattsburgh Zoning Ordinance for a variance to allow the property use as herein described.

Applicant: James A. Abdallah

Applicant's Address: 55 Prospect Avenue

Telephone No.: 518-570-8800

Parcel Identification: 221.6-1-10

Location of Request: 55 Prospect Avenue

Property Owner: (same as applicant)

Request Description: Area variance for exceedance of building coverage by 5%.

Zoning District: R1

Section Appealed: Schedule II (Schedule of Area & Bulk Controls) , 270-25.G

Previous Appeal: No.: 1783, 2246 Date: 01/14/08, 07/20/20

Identify Applicant's Right to Apply for Variance:

Ownership: X Long Term Lease: Contract To Purchase:

Other (Please Explain):

Applications for Zoning Variances must be accompanied by:

- 15 copies of existing and proposed site plan
- 15 copies of existing and proposed floor plan.

The Zoning Board of Appeals may impose reasonable conditions and restrictions on the grant of area and use variances provided they are directly related to and incidental to the proposed use of the property. Such conditions shall be consistent with the spirit and intent of the zoning law, and shall be imposed for the purpose of minimizing any adverse impact such variance may have on the neighborhood or community.

PROCEDURE IN APPEALING THE ZONING ORDINANCE CLASS B VARIANCE

DEADLINE FOR FILING APPLICATION 03/26/21

ZONING BOARD MEETING DATE 04/19/21

The Zoning Board of Appeals has been empowered to hear and decide all appeals to the Zoning Ordinance and to do so the Board holds public meetings once a month.

The attached appeal application must be completely filled out and returned to the office for action by the Zoning Board of Appeals at their monthly meeting. The filing fee for said application is as follows:

One and Two-family dwellings -	\$50.00
Multiple Dwellings	\$150.00
Commercial Properties	\$150.00

All checks should be made payable to the "City Clerk". In order for your appeal to be heard in the same month you apply, the appeal form and fee must be received by this office three weeks prior to the scheduled meeting of the Zoning Board of Appeals. All applicants or their representatives should attend the Zoning Board of Appeals Public Meeting of their appeal to answer any questions the Board may have regarding their request.

In filling out the form, please be specific and supply the Zoning Board of Appeals with all the necessary information requested on the form. If you are requesting a variance from the ordinance, you must detail why the literal enforcement of the ordinance will produce an undue hardship, while the variance requested will adhere to the spirit of the ordinance and do substantial justice. Financial disadvantage to the property is no proof of hardship within the purpose of zoning. In addition to the above, an applicant must submit adequate drawings and a site plan of all requests, which will involve any construction, alterations, or physical change of their property. **Twelve (12) copies of the entire packet including drawings and site plans are required** (we recommend the plans be approved before the twelve (12) copies are made).

Before the Zoning Board of Appeals may hear and decide your appeal, this office must first:

1. Publish the request in three successive issues of the Press-Republican newspaper not less than five (5) nor more than ten (10) days before the hearings.
2. Notify, by letter, all adjoining property owners of your request

This office is responsible for implementing the above requirements.

If there are any questions, please contact this office.
Thank you for your cooperation.

ZONING BOARD OF APPEALS

CITY HALL

PLATTSBURGH, NEW YORK 12901

STANDARDS OF PROOF - AREA VARIANCE

A. The applicant for an area variance is not entitled to an area variance unless he has furnished competent proof to satisfy the "practical difficulty standard" and that the variance, if granted will not alter the essential character of the neighborhood.

In order to satisfy the practical difficulty standard, the applicant must prove that the Zoning Ordinance as it applies to his land creates significant economic injury and that the variance, if granted, will not produce a substantial change in the character of the neighborhood. The courts of this state hold that "significant economic injury cannot be established except by dollars and cents proof which includes:

1. The original purchase price of the premises.
2. The current market value of the premises without an area variance.
3. The projected market value of the premises with the variance having been granted."

"Projected market value" in item 3 does not include any cost of valuation for the proposed construction. It includes only the current market value without any variance plus the "value of the right to build." The "value of the right to build" may be said to be the "value of the building permit". How much more valuable is the entire property with a building permit allowing the future construction of the proposed work? Projected market value which includes the value of the work to be constructed will be rejected.

Projected market value can be best shown by the in-person testimony of a real estate appraiser who is present at the hearing. Written appraisals may be less satisfactory because the writer is not present to answer any questions.

The difference between the current market value without the variance and the projected market value with the variance is the amount of economic injury. If the Zoning Board of Appeals determines that this economic injury is significant, then the applicant may be entitled to the area variance.

However, if a town official comes forward at the hearing with testimony establishing that it is important in this particular instance to enforce the Zoning Ordinance as it is written, in order to protect the health, safety and welfare, then the application must be denied. It is important to note that such testimony must be by a town official or someone hired by the town to give the testimony. If the Zoning Board of Appeals agrees with the Town Official that it is important in this case to enforce the Zoning Ordinance as written, then the applicant is not entitled to the area variance, unless he presents further testimony that the enforcement of the ordinance as written will deprive him of any reasonable use of his land. If applicant proves that, then he is entitled to the area variance.

B. The second question to be determined by the Zoning Board of Appeals is whether the the propose will alte the essential character of the neighborhood. Will a substantial detriment to adjoining properties be created? If it will, then the variance may be denied.

C. Other Grounds for Denial:

1. Whether the variance applied for is the minimum variance that is necessary.
2. Is the variance sought one that is merely desirable for the greater enjoyment of the property, as opposed to one that is necessary for continued practical utilization of the premises? (Bielak v. Zoning Board of Appeals, 78 AD 2d 435).

ZONING BOARD OF APPEALS

CITY HALL

PLATTSBURGH, NEW YORK 12901

-2-

STANDARDS OF PROOF - AREA VARIANCE

3. Is this hardship self-created? An area variance cannot be denied solely on the ground of self-created hardship, but is a factor to be considered.
4. Is the plight of the owner due to personal problems of the owner as opposed to matters dealing with the land or buildings? While an area variance may not be denied solely on this basis, it is a factor to be considered.

Area Variances Standards

The state statues define area variances as: "the authorization by the zoning board of appeals for the use of land in a manner which is not allowed by dimensional or physical requirements of the applicable zoning regulations."

General City Law, 81-b(1)

The state statues then go on to provide the zoning board with the standards for granting the area variances;

"(b) In making it's determination, the zoning board shall take into consideration the benefit to the applicant if the variance is granted, as weighed against the detriment to the health, safety and welfare of the neighborhood or community by such grant. In making such determination the board shall also consider:

(1) whether an undesirable change will be produced in the character of the neighborhood or a detriment to nearby properties will be created by the granting of the area variance;

(2) whether the benefit sought by the applicant can be achieved by some method feasible for the applicant to pursue, other than an area variance;

(3) whether the requested area variance is substantial;

(4) whether the proposed variance will have an adverse effect or impact on the physical or environmental condition in the neighborhood or district; and

(5) whether the alleged difficulty was self-created; which consideration shall be relevant to the decision of the board of appeals, but shall not necessarily preclude the granting of the area variance.

The board of appeals , in the granting of area variances, shall grant the minimum variance that it shall deem necessary and adequate and at the same time preserve and protect the character of the neighborhood and the health, safety and welfare of the community."

General City Law, 81-b(4)

Area or Dimensional Variances

Area variances may be granted where setback, frontage, lot size or yard requirements of this Code cannot be reasonably met. In making its determination the ZBA shall take into consideration the benefit to the applicant if the variance is granted, as weighed against the detriment to the health, safety and welfare of the neighborhood or community by such grant. In making such determinations the board shall also consider the following criteria:

Please give a written response to each section.

(1) Will an undesirable change be produced to the character of the neighborhood or a detriment to nearby properties be created by the granting of the area variance?

See attached separate letter with written response to each item.

(2) Can the benefit sought by the applicant be achieved by some method, feasible to the applicant to pursue, other than an area variance?

(3) Is the requested area variance substantial?

(4) Will the proposed variance have an adverse effect or impact on the physical or environmental conditions in the neighborhood?

(5) Has the alleged difficulty been self-created?
This information shall be relevant to the decision of the board but shall not necessarily preclude granting of the variance.

Variations

One of the basic powers given by law to a zoning board of appeals is called the "variance" power. The board has the authority to "vary," or modify, the strict letter of a zoning ordinance or local law in cases where this strict interpretation could cause practical difficulties or unnecessary hardships for an individual.

Appeals boards are frequently confronted with requests for variances. There are two types of requests that come before the board, and the standards by which they are judged differ. A use variance is a request to utilize property for a use or activity which is not permitted by the zoning ordinance, and the applicant must demonstrate "unnecessary hardship." An area variance is a request for relief from dimensional standards contained in the zoning ordinance, and it requires a demonstration of "practical difficulty."

The basic standards for determining unnecessary hardship and practical difficulty have been established and refined by the courts in numerous cases.

Use Variance

An individual who wants to utilize property for a use that is not permitted by the zoning ordinance must apply for a use variance. An applicant for a use variance must demonstrate unnecessary hardship by satisfying each of the following three tests:

1. Uniqueness

The applicant must prove that there are certain features or conditions of the land that are not generally applicable throughout the zone AND that these features make it impossible to earn a reasonable return without some adjustment. If the features or conditions are generally applicable throughout the district, a variance should not be granted. In those situations where the difficulty is shared by others, the relief should be accomplished by an amendment to the zoning ordinance, not a variance.

2. Reasonable Return

The applicant must demonstrate an inability to realize a reasonable return under any of the uses permitted by the zoning ordinance. There must be a "dollars and cents" proof of the applicant's inability to realize reasonable return; speculation or qualitative assessment is inadequate.² Failure to realize the highest return is not considered a hardship.

3. Character

The applicant must prove that the requested modification will not change the character or quality of the neighborhood. In addition, the "spirit" of the ordinance or local law should be preserved.

The applicant for a use variance must meet all three tests before the appeals board may grant relief. A use variance should not be granted if the "unnecessary hardship" was created by the applicant. If the appeals board grants a use variance to an applicant who has failed to meet each of the tests, it runs the risk of assuming the function of the legislative body and making a decision contrary to the legislative intent of the zoning ordinance.

An increasing number of use variance requests is often the sign of an "aged" zoning regulation. The appeals board should not circumvent the legislative process by granting use variances. Instead, the appeals board should advise the governing body of the need to reexamine and amend the zoning ordinance.

Area Variance

In the case of an area variance, the applicant is seeking modification of dimensional standards, such as yard requirements, set-back lines, lot coverage, frontage requirements or density regulations, so that the property may be utilized for one of the uses permitted by the zoning ordinance. The appeals board may grant relief if the applicant can demonstrate that strict compliance with the regulations would cause practical difficulty.

The determination of practical difficulty is a three-step process.³

1. First, the applicant must demonstrate that the application of the zoning ordinance to his property causes significant economic injury.
2. Once the applicant has demonstrated economic injury, then the municipality must show that the regulation in question is reasonably related to a legitimate exercise of the police power.
3. Last, assuming the municipality has met its burden of proof, the applicant must demonstrate that the restrictions, as strictly applied in his case, are unrelated to the public health, safety or welfare of the community and that granting the variance will not adversely affect the community.

In making a determination of practical difficulty, the appeals board may consider:⁴

1. How substantial the variation is in relation to the requirement;
2. The potential effect of increased density on available municipal, county and state facilities and services;
3. Whether the variance will cause a substantial change in the character of the neighborhood;
4. Whether the difficulty can feasibly be mitigated by some other method; or
5. Whether the interests of justice will be served in granting the variance.

The appeals board should grant the minimum relief necessary to allow reasonable use of the land in question. Not every applicant for an area variance is automatically entitled to receive relief. Each application should be carefully considered against the requirement for proof of practical difficulty.

Summary

The major difference between a use variance and an area variance involves the use of the property. An area variance results in a modification of physical restrictions so that an allowable use may be established on the property. By contrast, a use variance permits the establishment of a use which is prohibited by the zoning ordinance and the zoning map. It is for this reason that the standards for a use variance are more stringent than the standards established for an area variance.

Frequently, the appeals board is encouraged to make legislative decisions under the guise of use variance requests. The appeals board should exercise caution when confronted with a request for a use variance, and only grant those which meet the tests established for determining unnecessary hardship. The appeals board should resist the inclination to correct deficiencies in the zoning ordinance through the exercise of its variance power. If particular provisions of the zoning ordinance are inappropriate or unjust, the appeals board should recommend that the legislative body (City Council, Town Board, Board of Trustees) take the necessary steps to amend the ordinance or local law.

**James A. Abdallah
Residence
Area Variance
Narrative 03-26-21**

Project Description – The applicant, James A. Abdallah, proposes to erect a new covered patio/porch (8'x31') and a new pool house/out building (16'x40') on an existing residential lot located in the City of Plattsburgh at 55 Prospect Avenue. The lot currently has an existing 36'x40' residence located on it. The prior residential structure located on the site was destroyed by fire in late 2006.

The original application to this board in 2008 proposed to build a 28'x40' residence (currently existing) with the possibility of a future covered porch 10'x40'. I have reduced the front porch width 2' less than what is allowed and it was erected in 2020. I am now looking at finishing our rear yard including the above-mentioned improvements.

Required Area Variances – Exceedance of allowed building coverage (Building coverage & open space requirements; Article V, Section 360-17-A).

To demonstrate the reasoning for this variance request the applicant has prepared the following information in response to the “Five” standard variance request review points:

1. Undesirable change or detriment to nearby properties

The placement of a new covered patio/porch on the rear of the home will not change the currently utilized patio at the rear of the home but will provide added cover from the elements. The pool house/out building will provide additional space for our rear yard enjoyment along with added storage lost by removal of our deteriorated garage in 2019. Both structures are located in the rear of the property and therefore will not be a detriment to the visual or use along the properties City street frontage. We believe that there is no undesirable change to the property and that the proposed improvements will provide a nice finished look for the home/property.

2. Achieve goal by some other method

The patio/porch on the rear of the home exists today and the proposed roof will provide cover from the elements and match the style and construction on the front of the home. We do not see any other way to achieve this goal.

The proposed pool house/accessory structure has been part of our long term plan for the property since 2019. It will provide additional family and storage space needed for enjoyment of the property for years to come. We do not see this achieved by some other method.

3. How substantial is the Variance

The variance is not substantial. Our building coverage, as proposed only exceeds the zoning allowance by 5%. We meet the zoning requirements for open/green space in excess of 6%.

4. Adverse effects on physical and environmental neighborhood conditions

Variance from the building coverage requirement will have no adverse effects on the neighborhood's physical and environmental conditions. Residences around the neighborhood are accustomed to covered patio/porches on the rear of a home and accessory structures in the rear yard.

5. Is the difficulty self-created?

Although our proposal could be considered self-created we would ask that the board consider the benefit to our family if the variance is granted, as weighed against the detriment to the health, safety and welfare of the neighborhood or community by such grant. As established by the state courts and legislature a self-created hardship is only one factor to be taken into account in considering this application.

By evidence presented and support letters from our neighbors we do not believe this proposal will be a detriment to the health, safety and welfare of the neighborhood or community but will strengthen our home/family life.

Short Environmental Assessment Form

Part 1 - Project Information

Instructions for Completing

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 – Project and Sponsor Information			
James A. Abdallah, Owner			
Name of Action or Project: James A. Abdallah Property			
Project Location (describe, and attach a location map): 55 Prospect Avenue, Plattsburgh			
Brief Description of Proposed Action: Request to construct an 8'x31' covered patio/porch on the back of the existing home and an 16'x40' pool house/out building in the rear yard of the property; Request would exceed the allowable building coverage for the lot by _____.			
Name of Applicant or Sponsor: James A. Abdallah, Owner		Telephone: 518-570-8800 E-Mail: jaabdallah@gmail.com	
Address: P.O. Box 2668			
City/PO: Plattsburgh		State: NY	Zip Code: 12901
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.			NO <input type="checkbox"/>
			YES <input checked="" type="checkbox"/>
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval: City Building Permit/Zoning Variance			NO <input type="checkbox"/>
			YES <input checked="" type="checkbox"/>
3. a. Total acreage of the site of the proposed action? _____ acres b. Total acreage to be physically disturbed? _____ acres c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? _____ 0.18 acres			
4. Check all land uses that occur on, are adjoining or near the proposed action:			
5. <input type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input type="checkbox"/> Industrial <input type="checkbox"/> Commercial <input checked="" type="checkbox"/> Residential (suburban) <input type="checkbox"/> Forest <input type="checkbox"/> Agriculture <input type="checkbox"/> Aquatic <input type="checkbox"/> Other(Specify): <input type="checkbox"/> Parkland			

5. Is the proposed action, a. A permitted use under the zoning regulations? b. Consistent with the adopted comprehensive plan?	NO	YES	N/A
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	NO	YES	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If Yes, identify: _____	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
8. a. Will the proposed action result in a substantial increase in traffic above present levels? b. Are public transportation services available at or near the site of the proposed action? c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
9. Does the proposed action meet or exceed the state energy code requirements? If the proposed action will exceed requirements, describe design features and technologies: _____ _____	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
10. Will the proposed action connect to an existing public/private water supply? If No, describe method for providing potable water: _____ _____	NO	YES	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
11. Will the proposed action connect to existing wastewater utilities? If No, describe method for providing wastewater treatment: _____ _____	NO	YES	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places? b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency? b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody? If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____ _____ _____	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
	<input type="checkbox"/>	<input type="checkbox"/>	

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:

Shoreline Forest Agricultural/grasslands Early mid-successional

Wetland Urban Suburban

15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

16. Is the project site located in the 100-year flood plan?	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

17. Will the proposed action create storm water discharge, either from point or non-point sources? If Yes,	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a. Will storm water discharges flow to adjacent properties?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)? If Yes, briefly describe:	<input type="checkbox"/>	<input checked="" type="checkbox"/>

18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)? If Yes, explain the purpose and size of the impoundment:	NO	YES
Residential Pool	<input type="checkbox"/>	<input checked="" type="checkbox"/>

19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility? If Yes, describe:	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste? If Yes, describe:	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

I CERTIFY THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE

**Short Environmental Assessment Form
Part 2 - Impact Assessment**

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:	<input type="checkbox"/>	<input type="checkbox"/>
a. public / private water supplies?	<input type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input type="checkbox"/>	<input type="checkbox"/>

**Short Environmental Assessment Form
Part 3 Determination of Significance**

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
